Headmaster's Address

Class of 2019

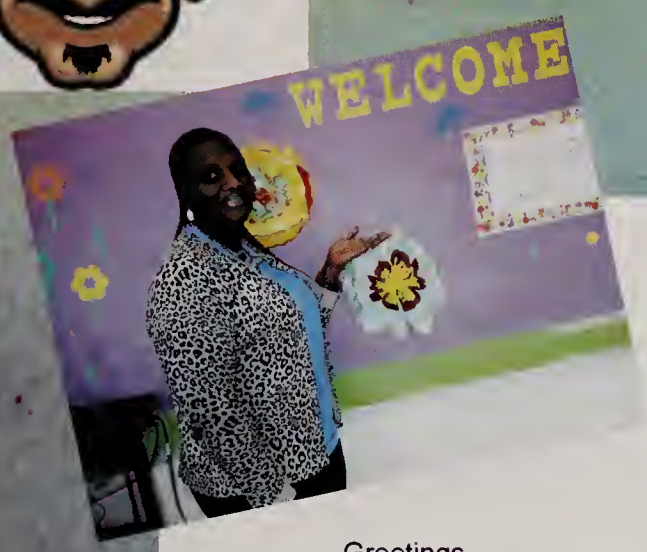
Some of you may not have realized this, but you have left a lasting impression on everyone that you touched during your time in elementary, middle, and high school. Your strength and determination has led you to this moment and while watching you strive towards this very moment, you have taught us all not to give up and to not look at failure as the end of a journey, but as the beginning of a new path towards achieving your destiny. It is so easy for us to look back on our years in school with blame and shame and in some cases, doubt about who we are and who we can become. However, Class of 2019 you have so much to offer this world and it is all of our hopes that you recognize in yourselves, what we so clearly see in you. Remember these pieces of advice:

First, it's not always what you know that will afford you some of the opportunities that you will receive in life, sometimes it's who you know. I implore you to show kindness to others and leave them with the lasting impression of your best self. Second, I want you all to go out and see the world. Travel, explore, and experience. See all of the sites that make this world special and meet the people who make this life worth living. Equally, I want you all to remember to always give back to your communities. Giving your time in service to your communities is much more valuable to strengthening your very being/your core than any amount money than you may earn. Last and just as important than the other 2 pieces of advice, please find your mission, your passion, your purpose. Think about what makes you feel euphoric and proud of yourself. Your purpose is what drives you to greatness and makes you feel whole.

My mission, my passion, my purpose for the past 20 years in the Boston Public Schools has been you and your families. So from the bottom of my heart, and speaking for your extended families at Urban Science Academy, congratulations and you will truly be missed.

Love,
Ms. Marcano

West Roxbury Academy



Headmaster's Addres

Greetings,

It is my honor to write a message for the West Roxbury Education Complex Yearbook family. Looking back over this school year, I am humbled by the dedication of the staff and the accomplishments of the students of Urban Science Academy and West Roxbury Academy. Despite the uncertainty and challenges that this school year presented, the continued efforts and perseverance of our community has been outstanding. As we celebrate the achievements of the Class of 2019, we are reminded of the struggles that led to the successful outcomes of the graduating class. The emphasis on family, on advocacy, academic excellence, and community pride is the pillar of our community's commitment to excellence.

I would like to take this opportunity to thank all of the dedicated and committed staff, community partners, and families for their ongoing support.

Best of luck Raiders! Find inner strength from the Hero within as you move on to an enriching future filled with success, and grounded in the educational foundation that has been set for you.

Jerleen John, Ed.D
Interim Headmaster
West Roxbury Academy

Thank you educators at Complex for your ongoing

Ariel Williams

WESTIE

PRIDE

We were practicing how to present a model of the cellular respiration cycle in Biology class. We're learning how things work in our body. We began with a study of cells, their structure and function. We've learned how humans depend on plants, and plants depend on humans in the exchange of carbon dioxide for oxygen, as we breathe.

Naami Pena, Ajanae Nunez & Madashley Cajuste, Grade 11

WESTIE GOES TO FENWAY!

West Roxbury made sure to put an exclamation point on what might have been the final football game in school history. Playing in a wintery mix Tuesday night at Fenway Park, the Raiders scored 18 points over an 8 minute span to open the 3rd quarter, cementing a 24-6 victory over Burke. "This was special." said Westie coach Derek Wright. "It was like a fairytale ending. It's something you'll be able to remember for the rest of your live, and 30 years down the road these guys can talk about how they played at Fenway. It was quite an honor to be selected to play here." -The Boston Globe
